

CRISPR Student position in Denmark

Do You want to help create a new media site focusing on CRISPR and gene therapy?

We are looking for a student with interest in CRISPR and gene therapy, who can help us with research to create content for the CRISPR Medicine Blog. The blog is in English for professionals working in the CRISPR and gene therapy field.

Responsibilities

Research content for the CRISPR Medicine Blog

- research on active clinical trials in gene therapy
- follow the latest research from high profile journals for interview leads

Setting up articles in Typo3 content management system (no prior experience needed)

Your profile

We are looking for a bright student interested in CRISPR genome editing, who knows the terms and would like to stay tuned on the latest research.

- Have a computer and solid experience in finding information on the web.
- Can work from home.
- Responsible, structured, and creative.
- Can keep a deadline.
- Enjoys writing, and have a strong proficiency in English - verbal and written.
- Lives in Denmark, preferably Aarhus or Copenhagen area

Work

2-4 hours per week, with a possibility for more.

Salary

Hourly pay according to Danish standard for student salary.

If this sounds interesting for You, please contact editor Rasmus Kragh Jakobsen, +45 40448668, editor@crisprmedicine.blog or Jens-Ole Bock, +45 24207221, jbock@cobotechnologies.com

CRISPR Medicine Blog

The CRISPR Medicine Blog focuses on topics related to gene therapy and genome editing using CRISPR (or other nucleases) for the treatment of human diseases. We strive to bring the best and most interesting interviews and news on everything related to this exciting and rapidly emerging field.
